

Adriatic Dream Cruise

A wooden sailing yacht with white sails is shown on the Adriatic Sea. The yacht is a two-masted vessel with a dark hull and a wooden deck. The sails are white and appear to be catching the wind. The sea is a deep blue, and the sky is clear and bright. In the background, there are low, hazy hills or islands on the horizon. The overall scene is peaceful and scenic.

Croatian Adriatic

Astronauts have claimed that the Adriatic Sea, with its limestone sea floor, is the bluest place on Earth.

The Croatian coast, is home to one of the largest archipelagos in the Mediterranean. On the fringe there are islands, 1246 of them by one count, scattered like marbles. Of those, a spare 67 are inhabited and many are smaller than three acres. This makes for

some spectacular vistas and quite possibly the best sea cruising on the world.

Chartering a boat is definitely the best way to explore Croatian Adriatic Sea and its coastline, which spreads for over than 1700km, with beautiful Mediterranean towns (some are older than 3000 years) and variety of cultural heritage. Untouched nature, as the prime Croatian attraction, is ideal place for rest and

relaxation. Many isolated bays with beautiful beaches with unspoilt landscapes will provide so much needed peace and silence.

Your welcome will be crystal clear sea, heavenly beaches, unique islands, pleasant locals, home cooking and quality vines. You will enjoy the smell of lavender, beauty of old olive trees and sweet melody of crickets.

Yacht Patronice

Our classic 22m wooden motor sailer – gulet, was handcrafted by skilled Turkish “usta” in 1999. She is a perfect strength match of red pine, okume, sapeleli and iroko wood.

During 2007 she has been completely refitted where all details have been meticulously redone. She has been turned into a cozy family cruising yacht with a lot of space on deck and in the cabins for a comfortable stay onboard.

Two masts with four sails could harness fair winds for smooth gliding over crisp clear Adriatic.

A reliable and powerful Caterpillar 320HP engine could output almost 11 knots making her one of the fastest gulet on the Adriatic.
